## Action Plan for 2006 Inspection Year

Congratulations on a successful 2005 Inspection year! All units scored higher than 2004. Listed below are tips to improve scores.

- All cadets must complete the minimum yearly requirements: complete one correspondence course, attend one advance training and advance once per year. This is the most important tip.
- The Petty Officer course is **not** complete until successful completion of exam. Have the cadets take the Petty Officer exam in a timely fashion.
- Cadets must attend Recruit Training before attending any advance trainings.
- Make completion of the BMR a requirement to attend Recruit Training.
- Make completion of Seaman Course a requirement before end of year cadet attended RT.
- Make sure cadet has signed orders (NSCTNG 005) from the COTC upon completion of an AT. If the orders are missing contact the COTC ASAP. This is proof they attended the AT.
- Cadet must fulfill three requirements to advance: complete correspondence course and exam (if required), attend AT, and six months Time in Rate.
- Disenroll non- motivated cadets in June and again in Dec. This really hurts your score to carry them over December 31.
- Monthly Activity Reports are due by the 15<sup>th</sup> of each month.
- Verified MARS Report is due to NHQ within 45 days.
- Training counts for 35% of inspection grade.
